Education

Indian Institute of Technology (ISM) Dhanbad

Aug 2024 – May 2028

B.Tech in Engineering Physics

- **Relevant Coursework:** Data Structures & Algorithms, Probability & Statistics, Discrete Mathematics, Object Oriented Programming

Experience

Freelance Full-Stack Developer | Self-Employed

May 2026 – Present

- Delivered **production-ready web solutions** for two paid clients, including **mobilecaretech.in** and **crafterproductions.in**.
- Gathered client requirements, translated business needs into scalable web applications, and managed **end-to-end delivery**.
- Collaborated directly with clients, incorporated feedback, and provided **deployment and post-launch support**.

Projects

ChatHive | MongoDB, Express, React, Node, Socket.io, JWT, Cloudinary, Resend | [[GitHub](#)]

- Engineered a **scalable full-stack messaging platform** using the **MERN stack** for seamless user interactions and robust data management.
- Architected **low-latency bi-directional communication** with **WebSockets and Socket.io**, powering instant text delivery, live presence tracking, and typing indicators.
- Secured user data and access pipelines using **JWT authentication**, ensuring safe session management across the application.
- Integrated **Cloudinary, Resend**, and optimized **RESTful APIs** for media delivery, emails, and rapid data sync.

MobileCareTech (MCT) (Freelance Client) | React, Node, Express, MongoDB, Tailwind, JWT, OAuth, Gemini | [[GitHub](#)]

- Built and deployed a **production-ready MERN application** with **JWT authentication** and **Google OAuth** for secure user access.
- Integrated a **Gemini API AI assistant** with **Hindi/Hinglish voice input** to automate customer assistance and improve accessibility.
- Developed an **admin dashboard with CRUD functionality** for products, pricing, images, and inventory.
- Deployed the application at **mobilecaretech.in** using **Vercel and Render** with a custom domain and production-ready setup.

Crafter Productions (Freelance Client) | React, Vite, Tailwind, GSAP, Framer Motion | [[GitHub](#)]

- Designed and deployed a **production-ready website** for a wedding videography agency, serving real clients.
- Built a **responsive, mobile-first UI** with cinematic scroll animations and smooth page transitions using **GSAP and Framer Motion**.
- Deployed the application at **crafterproductions.in** with production-ready configuration for a seamless cross-device experience.

Technical Skills

Languages: C, C++, Python, JavaScript, Java

Frameworks: React, Node.js, Express.js, Tailwind CSS, FastAPI, Socket.io

Backend: REST APIs, JWT Authentication

AI/LLM: Gemini API, RAG, AI Agents, Prompt Engineering

Databases: MongoDB

Tools: Git, GitHub, Postman, Photoshop, Canva, Figma, Cloudinary

Achievements

- Solved **350+ problems** on **Codeforces** (handle: **Code_Krackr**) with a **current rating of 1246 (Pupil)**, **competitive programming enthusiast**.

Social Engagements

- **FotoFreaks – Photography Club, IIT (ISM) Dhanbad:** Active member contributing to club design work including posters, creatives, and event graphics.
